OUR WASHINGTON LETTER.

The President and New York—Extra Session—Reorganization of the Treasury—Official Notice—District of Columbia Affairs—Want the Right of Suffrage—Other Notes.

WASHINGTON, D. C., May 4th, 1877.

While absent from the city to attend the opening of the permanent exhibition at Philadelphia, it is said the President will take time to visit New York. Unusual efforts will be made to make his reception brilliant, and no doubt the commercial metropolis will leave nothing undone to receive suitably the chosen ruler of the land. The civic authorities of New York have an experience in these matters that enables them to excel any other municipality. If it is expected that the President's head will be turned by a reception, however brilliant, a mistake is made. Speaking from knowledge, I am safe in saying that no man in the United States is less likely to be carried away by a demonstration than President Hayes. He may have faults, but they are not such as can be worked upon and brought out by means of a grand reception. If he has any words to say when he meets the men who are accredited by New York to receive him, they will be words of truth and soberness, and not such as, it may be, his hosts anticipate. The interests involved in what the reconstruction of Congress may do, and in which the interests, as well as those of his party are bound up, will not permit the President to go beyond the ordinary civilities of such occasions, and for that reason, relying upon his extraordinary control of himself, reliance may be placed.

It is said, is to be thoroughly reorganized. The changes so far have been few, but no one can go among officials here without learning of contemplated changes. On the whole it may be set down as certain that the Treasury is not thoroughly reorganized before the meeting of Congress to rehearse need over be placed in rumors again. All the reports indicate that the new appointees will be identified distinctly with the Republican party. This Government yesterday received from the Turkish Minister

OFFICIAL NOTE
That the Russian Government had declared war against Turkey. No action seems to be necessary on the part of our Government, and proclamation of neutrality would seem to be superfluous though one such proclamation has been made by the Government.

DISTRICT AFFAIRS
Are not of special interest to your readers, but it may be said that this is the only city of 100,000 inhabitants in the civilized world which is deprived entirely of the right of suffrage, and that an effort will be made at an early date to secure that right through Congressional action. We propose to ask at least for a limited suffrage and we ask for the help of all people throughout the country who have the rights of citizens at heart. In reply to numerous criticisms on the action of

SECRETARY SCHREY
In making appointments, it may be said that every promotion or removal appointment made in his department so far has been made either on account of long and efficient service, or by reason of excellence upon a competitive examination. No friend of the Secretary or of his authorities, so far as he knows, have been appointed.

A claim has been made upon Wm. H. Vanderbilt, by Teague C. Claffin, for over \$100,000, the proceeds, she alleges, of \$10,000 deposited by her with Commodore Vanderbilt in 1871 for speculative operation. Vanderbilt, before leaving for Europe, pronounced the claim ridiculous.

SACRAMENTO is following in the wake of Reno. There has been filed in the Clerk's office of that county the certificate of incorporation of the Grangers' Co-operative Business Association of the Sacramento Valley. The object of the organization is to engage in general trade in merchandise, and receiving deposits of money and dealing as a factor in all kinds of agricultural products and the importing and exporting of all articles appertaining to agricultural matters. The place of business is in Sacramento; capital stock, \$50,000, in shares of \$50. Directors—G. W. Hancock, of Sutter county; P. S. Lowell, of Sacramento; Nicholas Merles, of Roseville; A. J. Soule, of Sacramento; W. S. Runyon, of Sacramento; L. H. Fassett, of Sacramento; E. G. Morton, Rountree; D. A. Ostrom, Wheatland; William G. Brown, Sutter.

NEW PARTY.

The New York Herald has always some new hobby. It wants a "new party" now, and prints a letter from an Ohio correspondent relative to the movement in that State. The correspondence gives a curious view of Ohio politics. Ohio chooses a Governor next Fall, and also a Legislature which is to elect a United States Senator. It is a close and a very doubtful State, and was carried by the Republicans last Fall by only 2,747 majority, in spite of the fact that the Republican candidate was an Ohio man and a general favorite. What the Ohio politicians of both parties think is therefore a matter of a good deal of interest. The correspondent reports that there is some dissatisfaction among Republicans with the President's Southern policy; but it smolders; those who feel it dare not speak out, and their opposition is thought of little importance by the administration Republicans. General Grosvenor, Speaker of the House, seemed to express the general contempt for the recalcitrants when he said to the correspondent that ninety-five per cent. of the Republicans support the President, and ninety-five per cent. of those who now oppose him in secret will vote the Republican ticket next Fall. But he gave a curious insight into the party's grievances with the President when he added that the danger lay more in Mr. Hayes's appointing to office the liberals of 1872 than in his Southern policy. So the quarrel, what there is of it, is after all mainly over the offices.

The Herald, commenting upon the letter, remarks:

As to a division of parties, both sides say in Ohio that their State election is too near. The Democrats are very willing to receive recruits, which is a natural feeling; the Republicans would like to draw the old Whigs away from the Democratic ranks; but the two present party organizations, everybody says, will stand firm until further notice. Well, a new party, after all, must be formed by the people and not by the professional politicians. It must grow out of events; and these events have not yet had time to happen. The President, we notice, denies any desire to turn the Republican into a Whig party; he likes the present name best. But names amount to nothing; policies make parties; and now that the Southern troubles are settled, and new policies must come up, men will be drawn to or repelled by these, and thus new parties will form themselves. We have had political chaos a long time; presently order will come, in spite of the efforts of those who prefer chaos.

ADDITIONAL TRAIN PROTECTION.

The railroad company have been experimenting for a few days with an apparatus for the better protection of passenger trains. It works in connection with the air brake. An additional air pipe passes beneath each car from the engine to the rear of the train, with the usual rubber couplings between cars; the pipe is connected with air cylinder beneath the car, and has a valve so arranged that by turning a little handle the air is forced into the cylinder with as much power as though the engineer had applied it, and the brakes are set up instantaneously. At the same moment the rush of air at the engine blows a small whistle in the engineer's cab, and he is warned to look out for signals from the conductor. The Sacramento Record-Union of Friday speaking of it says this apparatus has been fitted to the California and Oregon passenger train, and experiments made with it yesterday were very successful. Each passenger car has two of the handles referred to above—one at each end—while the baggage and express cars have but one. By their use the conductor can apply the brakes in a second, without the delay of signaling the engineer with the bell cord. If this apparatus had been attached to the passenger train which a few weeks since collided with a freight at Cascade, the conductor could have stopped his train when he found that the engineer was running by the station, and the accident would have been prevented.

LAND GRABBERS EXPOSED.—A remarkable and important report by the State Land Commission of California has been presented to Gov. Irwin, and appears in full in the Record-Union. It is the result of an investigation of the Commission into the State's title to public lands, and how they have been issued, and shows that the grossest frauds have been perpetrated by the system of making application for State lands, by means of which a number of speculators have possessed themselves of thousands of acres of State domain, and that, too, with the knowledge and at least passive concurrence of State officers.

ABOUT OUR TOWN.

A correspondent of the Grass Valley Union writes concerning Reno, her buildings, high rents, gardens and crops, stocks and their influence upon industry, land reclamation, fate of the Truckee, etc., as follows:

We are still here—just an even hundred miles from Colfax, in the growing town of Nevada. It is astonishing how rapidly

RENO IS BUILDING UP.

Houses spring up with a mushroom growth. When I came here two years ago, the town was much smaller than it now is. A block or two from the business center brought one to the ever present sagebrush and boulder. Now see the difference: Cozy homes and the nucleus of many a fine garden take the place of their wastes. Property increases in value yearly, and an active demand continues for homes.

RENTS ARE HIGH.

The commonly accepted price being about \$5 a month per room, which amounts to considerable when a seven or eight-roomed house is rented. Of course landlords will continue to charge those figures as long as they can rent their houses. The class of houses being erected are of a high order usually. Several of them will rank with the nicest ones you have in Grass Valley. Though very backward

THE GARDENS

Are advancing slowly and in a few years will be very nice indeed. Scrubby flourishes, fruit trees leaf and blossom very nicely, but the changeable climate usually manages to nip the buds. For that reason we cannot raise much fruit. But

POTATOES AND ALFALFA

Are our strong hold. We don't hold back to anybody for them. Our soil seems peculiarly adapted to their culture. Already the alfalfa has attained quite a height and looks so refreshingly green that the contrast with the bleak hills around is very decided and enjoyable.

THINGS ARE DULL

And money scarce. The stock market is the pulse of this State. When stocks are up everybody is making money and times are lively; but let the market run down, then all business is prostrate, money is scarce and everything lags. Just now the panic in stocks cripples everything. We of Reno feel it peculiarly severe. Every influence brought to bear on the bonanza city directly affects us. The

STARVATION AND WANT

Now felt in Virginia city causes many idle men to branch out for new fields, and Reno with its various fields of labor, gets a full proportion of them, but as we had already more than could be employed, the reinforcement added to the idle hands and hungry stomachs. The amount of money estimated as lost in stocks in Reno during the past year amounts to \$200,000—\$3.00 to every person in town. These figures are not far from correct, so prevalent is the stock speculating mania. The depression this drain causes retards our own

MINING INDUSTRIES

Very materially. Peavine offers a good field for investment and prospecting. Pyramid presents a continuous ledge of silver ore almost the exact image of the Comstock ore, but is not developed as it should be and would be if the owners had the money which they have put into California street. The ledges are there, for we see them cropping out to a height of 20 feet in places, and where drifts have been run they have exposed good ledges, but money is lacking and the industry languishes. All the projects which have fallen through owe their defeat to this one thing, stocks—the blight of industry in Washoe county. No State can succeed while its life blood flows and ebbs at the dictation of a few California street brokers. We are learning this fact to our cost. Under the

DESERT LAND ACT

Much land is being taken up in this vicinity. Irrigation ditches are being projected, surveyed and, in several instances, in course of construction in conformity with the requirements of that act. By this means large tracts of sagebrush land will in a year or two give way to fine farms.

VON SCHMIDT'S SCHEME

Of turning the waters of Lake Tahoe into a canal for San Francisco, meets with much opposition here, because should it succeed, we fear the water we now use for irrigation would be missing. Von Schmidt tries to lull opposition by talking of raising the water, etc., but any one at all acquainted with the facts of the case can readily see that in the dry months the natural flow of the Truckee river would be required to fill the canal, and then where will our river be?

THE PICNIC SEASON

Is upon us. We had one on the first at Glendale—a pretty little town just east of us. Another will be held on the banks of Donner Lake—37 miles distant, on the 19th. The excursion train will no doubt go crowded.

RIGHT.—We learn that P. S. Dorney heretofore the high-muck-a-muck of the Caucasians, was expelled from the order at the recent meeting of the Supreme Council, at Sacramento. G. V. Tidings.

Interesting Road Case.

Constable Barlow went to Franktown yesterday to arrest Judge Owens and Joe Frey, two prominent citizens, for obstructing the highway, complaint to that effect having been made before Judge Richardson by E. Twaddle, likewise a prominent rancher up there. The case is set for the 18th. When Owen was a Commissioner the Board passed an order closing the road at Franktown, over which all this trouble arises. Twaddle carried the matter to the Supreme Court, which decided that the Board had exceeded their authority, and that their order was therefore null and void. The present Board, conforming to the order of the Court, ordered the road reopened, and the Road Supervisor obeyed. Now come Owens and Frey, and close the road up again, and hence the rumpus.

Shooting at Washoe.

At Washoe, on Sunday afternoon, W. L. Samuels shot James Hamlin, the ball entering the mouth and ranging upwards. A doctor from Virginia dressed the wound, and there is not much danger of its being fatal. Samuels was brought here Sunday night by Constable Turley and lodged in jail. Samuels alleges that Hamlin had brutally mistreated him, and thinks he was justified in shooting him. Mr. Samuels has been a resident of Washoe for the past twelve years, and previous to this time has never had a quarrel of importance. On side of his body has been paralyzed for a number of years. Our old residents know him well.

Magique Soiree.

The original world-renowned and justly celebrated illusionist, Carl Bosco, will appear here commencing Thursday evening, introducing such beautiful illusions as the fairy bird and flying cage, marvel of Mecca; the great spiritual cabinet, and instantaneous growth of flowers. He will be assisted by Miss Ada Joliet, who will appear in the wonderful aerial suspension and second sight. For further particulars see his advertisement.

Black Hills.

M. C. Lake has permitted us to see a letter received yesterday from a cousin at Deadwood. He says: This country is a grand bummer; lots of blow for a little gold. There is, beyond a doubt, a few rich claims here but they are held by money men. The country is staked off and claimed for thirty miles around, and that is as far away from town as a person would want to go, on account of Indians. There are thousands of men here without a cent, or any thing to eat. It is unsafe to leave your wagon, or tent alone a minute, even in the day time. There is bound to be a terrible stampede from the Hills pretty soon.

Theatre Last Night.

The "Tour of the World" is all that is claimed for it, and one of the very best entertainments even presented to the people of Reno—such a show as should be liberally patronized. Owing to the inclemency of the weather the audience was not a large one. To-night is positively the last. Do not miss such a first class show as this tour of the world in 80 days.

Accident.

While out hunting last Sunday near the English Mill, Mr. Marks had his hand severely injured by the barrel of his gun bursting. His hand was torn in several places and it will be some time before he will again be able to use it. Pierce Evans was driving by at the time and brought him to town, and Drs. Johnson and Dawson dressed his wounds.

A. S. HOPKINS, one of Sacramento's Supervisors and prominent business men, was in town yesterday. We knew him long ago, when we both were representatives of the earlier and purer days of the Republic. Then Hopkins kept a small news depot and we peddled peanuts on the C. P. cars.

On Thursday evening the ladies of the Congregational Church will give an entertainment in that church. There will be music, recitations, ice cream and other good things there to please and entertain. Admission free.

A FINE rain set in yesterday afternoon, and the farmers of this valley are benefited about \$50,000 in U. S. gold coin.

NORTON H. PINX step around to the Western Union office and get a telegram, like a little man.

THE CON. VIRGINIA dividend was paid yesterday. California pays her's to day.

STOCKS were a good deal better yesterday.

TOWN, THE FINEST BRAND

The advertisements in a newspaper are read more than the thoughtless imagine, they are the map of a large class of men's capabilities in life. The man who contemplates doing business in a distant town takes up the local paper, and in its advertising columns sees a picture of the men he has to deal with; a complete record of the town, its banks, and in almost every case he can estimate the character of the men who are soliciting the public patronage. The advertising page is a map of the town, a record of its municipal character, a business confession of the citizens, and instead of being the opinionated production of one man, it is freighted with the live thoughts of a hundred.

The debts of the Hamburg gambling bank were sold at auction recently. They were bonds given by unfortunate players—dukes, counts, barons, duchesses, countesses, officers, artists, merchants, lawyers and diplomats. The bonds are stated to represent the sum of \$300,000, and they were sold at \$1,300, that being the highest bid made.

To THE CITIZENS OF RENO.—Yankee Dodge having decided to remain in Reno for a few weeks longer takes this method of calling your attention to the fact. Having for many years been connected with the well known cheap house of L. D. Wilson & Co., No. 75, Fowery street, New York, enables me to sell goods at lower rates than those less favored. My stock consists of almost everything you can think of, in fact a general variety store. New goods will be constantly added. My aim will be to give 25 cents worth of goods for every two-bits received, and any article not as represented the money will be refunded. No two prices, a child can buy as cheap as a grown person. Come in and price goods, no one expected to buy unless they so desire. Peddlers supplied at less than San Francisco prices. Come and see us, corner Virginia and Second street, opposite New Odd Fellows Hall.

YANKEE DODGE, Proprietor.

L. D. ADAMS, Manager.

HOME AGAIN.—Charles Coleman having returned to Reno and bought out the barber shop formerly occupied by J. M. Enkle, takes pleasure in announcing to his old friends and the public in general that he has refitted the above shop in elegant style, and thoroughly furnished it with all the equipments necessary to a first class barber shop. All branches of the business will be attended to in a workmanlike manner. Connected with the above place will be found the most improved bathing establishment to be found in Reno. Hot and cold baths at all hours. Everything about the place will be found new, neat and clean.

CHARLES COLEMAN.

All kinds of hair tonics and restoratives always on hand.

HOOLE'S PHARMACY.—To THE APPLICANT.—We sell pure drugs and medicines compound prescriptions from the purest and best material in the world, at our usual low rates—fifty per cent less than was ever charged in Reno. Our reputation for fair dealing and moderate charges being now well established, and thanking a discriminating public for their considerate patronage I will offer still further inducements in low prices for toilet articles and all goods usually kept in a first class drug store, and invite especial attention to the small margin at which such articles can be purchased at our store.

S. F. HOOLE.

A FULL line of crockery and glassware has just been received by J. C. Hagerman, and he says to saloon keepers, if they want the latest style in bar fixtures, they can call on him and get the "very thing." In addition to the above he has also a complete assortment of China dinner and tea sets, glass sets and a complete stock of Rogers Bros.' and Reed & Barton's silver plated ware of the best quality. These goods were bought in Boston at a ruinous low price and will be sold here at corresponding figures. Call and examine.

GOOD PLACE TO GO.—Wintermantel's hotel and restaurant, Deutches Gasthaus, Pension Francaise, Center street, near the depot, Reno. Also, El Dorado saloon, opposite the hotel, and to which is connected a shooting gallery, ten pin alley, billiard table and pigeon hole; also musical instruments of all kinds. Musicians can choose their own instruments and be satisfied they have a good thing, from the piano to the fiddle, etc.
